# Oakwoods Energy Project

Creating a Benefit For Your Community:

- ❖ Compatible with Agriculture
- ❖ Tax Revenue for Hancock County
- ❖ Clean Electricity

Please join us for our online virtual presentation as we launch our proposed Oakwoods Energy Project. We are committed to working with the community and want to understand any concerns or questions that you may have. There will be a short presentation about Liberty Power and the project.

Liberty Power is committed to generating clean, renewable energy. Liberty Power owns or has interests in a portfolio of North American-based renewable energy generating facilities representing approximately 1.7 GW of installed capacity.
